

# A Note To Our Pilots

Thank you for volunteering your time to the Adopt-A-Pilot program, you have begun an amazing journey! This packet contains everything you need to get your program started, and answer some of the more common questions you may have.

- **PLEASE** check-in with your teacher early on to make sure they received **two** boxes of Adopt-A-Pilot materials **and** they have enough materials for their current class size.
  - If you need more materials email [adoptapilot@wnco.com](mailto:adoptapilot@wnco.com) or your Crew Base Ambassador as soon as possible so we can get you what you need.
- Spring is often very busy for schools. We suggest you talk to your teacher shortly after receiving your materials to determine when you should start.
- Go to your EFB. Not Flying. Volunteerism & Adopt-A-Pilot for a wealth of resources for you to use in during your Adopt-A-Pilot class (videos, articles, photos, etc.).
  - More then likely you will be able to hook your EFB up to your schools AV system with the help of a dongle (yes, that is an actual word). You can buy one on Amazon for under \$15 or most schools already have one.
- Over the years we've found the best ideas come from other Pilots. If you have any suggestions, please share them at [adoptapilot@wnco.com](mailto:adoptapilot@wnco.com) so that we can add them to the program.

If after looking through this material you still have questions please reach out to your Base Ambassador.
